

TCM Forklift Parts

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of every global business. Transporting industrial goods takes place each day on our busy world. Initially innovated as industrial vehicles in the 1930s in the U.S., forklifts gained popularity following World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machinery spread globally.

Initially founded as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. prior to becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's very first forklift. Through the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation with the trade. TCM started constructing forklift manufacturing locations outside of Japan during the 1980s and is currently engaged in lift truck manufacturer at three foreign factories in the United States, Europe and China.

With more than fifty years of accumulated expertise and technology, TCM has been proudly manufacturing many models of industrial lift trucks, making their models recognizable all around the globe. With an energetic and strong workers, TCM has been able to continually work towards becoming a future leading material handling business.
