

Meritor Parts

Meritor Part - The Meritor Company is a leading international dealer founded upon one hundred years of tradition of service and quality. Meritor concentrates on integrated systems with a range of modules and parts to the original machinery manufacturers and aftermarket equipment in the industrial and transportation trades.

Meritor values the wishes of their clients to guarantee their success while priding itself in the company's unique energy and believes this output of energy to be their competitive advantage in their international operations. Meritor begins with a tradition which values diversity of people and their broad thought processes. Operating in 19 nations and employing more than 11,200 people, Meritor encourages collaboration and innovation amongst a team of experienced experts.

By just hiring future focused people, Meritor strongly believes these top-caliber individuals would be able to quickly adapt to changing surroundings and demonstrate the commitment and performance considered necessary to be able to reach results in the competitive materials handling trade. The business empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor provides their workers various chances for professional and personal development.

Their Advanced Engineering team is at the forefront of components and system engineering which comprise axles, drivelines, suspension and braking systems intended for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of their global engineering personnel.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants which are situated all over the globe in 19 nations and in 5 different continents.

The supplier development network is specifically located in order to support new business growth. Regional teams are supported by global quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each and every part of the trade. The DFSS or otherwise known as Design for Six Sigma ensures product reliability within every region. The team is likewise included transactional Green Belts who utilize Six Sigma tools to business techniques and implement lean techniques.
